

# 4th Annual Pacific Coast Native Iris Open House (2nd Round) April 13, 2008 | 1:00-2:00

## **El Centro Gardens**

**The Home Garden of Ryan Grisso, Anna Pascuzzi, and Little Giana**

Please join us on Sunday April 13, 2008 (rain or shine) as we open our Pacific Coast Native Iris Garden (11Am to 2PM). This is an effort to accommodate the people who could not make the April 5 date and the crowd may be smaller. The garden features thousands of iris seedlings from our own hybridizing work, as well as many of the Joe Ghio and Vern Wood past introductions. There will also be a number of hybrid varieties potted up for sale. We are located off Highway 80, take the Hilltop exit and head East, to El Centro Rd. turn right. We are the third house from the bottom on the right (shingled house). Please park respectfully. Please feel free to call or e-mail if you have any questions.
